equator	The equator is an imaginary line around the middle of the planet, halfway between the North and South Pole.
climate	The average weather conditions in a place for 30 years or more.
population	The number of people living in a certain place.
atlas	A bound collection of maps.

Art

Words	Definition
printing	A way to make identical copies of text/images on paper.
stamp	To put a mark on an object.
repeating pattern	A pattern that is repeated more than one time.
overlap	To cover or go over part of something.

This term we will become little entrepreneurs to raise money for a charity in Africa. We will be comparing life in Uganda to here and focusing on the city of Kira. We will learn about the human and physical geographical features, looking for similarities and differences.

We will be making printed products to sell, inspired by the artist Alma Thomas. We are even going to print our own t-shirts for the event.

We also have a guest speaker visiting us, who worked in Uganda for a while.

English

poetry	A piece of writing that uses imaginative words to share ideas, emotions or a story with the reader.
apostrophe	A punctuation mark used in contractions to replace missing letters or to show possession.
suffix	A letter or group of letters that goes on the end of the word and changes its meaning.
adjective	A word that describes a noun (a person, place or thing).

Science

food chain	
source	There are two sources of food: plants and animals
living	If something can move and grow.
survival	The continuation of life
