

Friday 6th March 2026

Fairfield Newsletter

Highlights of the Week

EYFS have been reading the Smeds and Smoos. We mixed red and blue paint to make purple paint and painted a SmooSmed. We also learnt the numbers 8 and 9 and spent time making part and whole models for each number.

Year 1 have been adding symbols to our maps of Fairfield and creating a key. Super Geography work, Year 1!

Year 2 loved maths this week, they became robots to learn directional language such as left, right, anti-clockwise and clockwise.

Year 3 have been building and labelling our own life-sized skeletons – piecing together the bones, learning their names and having a rattle-tastic time becoming mini anatomy experts! 🦴 ✨

Year 4 have absolutely loved making electrical circuits this week - we are mastering using light bulbs, motors, buzzers and switches!

Year 5 have been learning about percentages this week. The children have enjoyed making connections and applying their knowledge of fractions and decimals.

Year 6 had a great time celebrating all things linked to World Book Day. As well as looking fabulous, they created their own potato characters, created comic book versions of their favourite stories and read one of the new World Book Day books.

Easter Holiday Clubs

There are several Easter holiday clubs happening around the Stapleford area, we have attached information for a couple of options that we have been made aware of.

JAG – have Easter activities and care options over the break and are also offering a limited number of free places to families on low income who qualify for free school meals.

Also, Rattle & Roll performance clubs are operating at several Trust Schools and local Primary schools (please see flyer attached)

Special additions to the Fairfield Family

Spring is here and a mummy bird has chosen a storage shed in the KS1 playground at Fairfield as her happy place to lay her eggs. This area has been cordoned off to allow our special visitors a quiet place to hatch. We will keep you updated on their development.
